

Field

NOW BROADCASTING

Field ready and field tested the **Etón Field** receives most every radio wavelength—AM (MW), FM, and Shortwave (SW)—at home or abroad. And it's easy to set the station spacing and frequency so your stations come in loud and clear wherever you are.

LISTEN UP

With high sensitivity, strong anti-interference, low background noise, and even lower distortion, listening on the Etón Field is a real pleasure. Plus, its wide/narrow bandwidth selection improves audio fidelity and minimizes noise. Listen out loud or plug in your favorite headphones.

FYI, IT'S GOT RDS

The Etón Field radio features RDS for FM. RDS stands for Radio Data System and it enables FM broadcasters to deliver more than just an analog audio signal, but also to transmit digital data, like the station's call letters, style of music, song title, artist and more. Nice.

Receives AM/FM Band	Receives Shortwave Band
Receives RDS	Digital Tuner
Alarm Clock	Headphone Jack
Audio Line Input	

WAKE UP

With local and world time settings, radio and buzzer alarm clock settings, sleep timer and snooze light, the Eton Field keeps you in time...in any time zone. It even displays the temperature to help you prepare for the day. And if you want to prevent the radio or alarm from turning on all together, just hit Lock.

UP TO SPEED

When it comes to tuning in to your favorite frequency, you can take it fast...or slow. The dial-in-dial tuning knob lets you select your speed—fast, slow or stop to keep it in a locked position.

FIELD READY

The Eton Field radio includes a built-in hand strap for carrying your radio with ease.

GET POWERED UP

Use 4 D batteries (not included) or plug in the supplied AC adapter into the DC jack for full power. The battery strength indicator on the display will let you know when it's time for a change.

FEATURES

- AM/FM/SW bands
- FM with RDS (Radio Data System)
- Dial-in-Dial coarse/fine digital tuning
- Treble/Bass control
- RF gain control
- Wide/Narrow bandwidth selection
- 50 memory stations
- External AM/FM/SW antenna connections
- Local/DX switch
- Rich orange LCD display
- Line-in/Line-out and headphone jacks
- FM telescopic antenna
- Carrying strap
- Reset/Lock button
- Power supply: 6V DC Adapter or 4 D Batteries (sold separately)

SHORTWAVE BANDS

AM	520 – 1710 kHz
FM	87.5 – 108 MHz
SW	17.11 – 30 MHz
